

# HEARTS TWO HANDS QUILTING

## Hearts Two Hands (H-2-H)

**Our Motto:** *What we make with our two hands comes from our hearts.*

H-2-H began in 2003 making baby quilts to help Toni Floyd with her delivery of quilts for a program benefiting kids at-risk. When that program closed, in 2006, she started **Quilts for at-risk Kids** to continue deliveries to children in need on the Range. Toni has delivered over 1300 quilts since 1998.

H-2-H helped prepare 90 yards of fabric for the **Duluth Quilt Show**, where 40 at-risk quilts were completed; assisted with 35 quilts for **Hurricane Katrina** victims; made 10 quilts for members of an **Alzheimer's Study** in California; and helped fill many special requests over the years. H-2-H is a major contributor in making pillowcases for **ConKerr Cancer Kids** that go to St. Mary's Hospital in Duluth. It continues to make quilts for at-risk kids for the **Social**

**Services** in Ely, **Foster Care** kids on the range and babies in the NICU at St. Mary's. This year we made a quilt on National Quilt Day for **Wounded Veterans** in Memory of Lyman Childers, the father of one of our quilters. This group is an example of how EUMC and friends come together for the benefit of others.

This is a wonderful group of dedicated women who have helped fill the needs of many. For more information contact Toni Floyd at 365-7420.
